

Dear Arizona Voter:

With more than 1,500 members and a 55-year history throughout the state, the Arizona Association of School Business Officials (AASBO) is a non-profit professional organization dedicated to promoting the highest standards of school business management in Arizona.

The members of AASBO stand united in urging a YES VOTE on PROPOSITION 100.

As leaders in the Arizona education community, the members of AASBO have premised our careers on providing a quality education for the more than 1 million students who study in Arizona's schools. The well-being of these students and ensuring their futures are at the heart of every decision we make. With that in mind, saying YES to this temporary increase in the state's sales tax – at a time when Arizona's education funding hangs in the balance – appears to be not only a must, but the only responsible course of action possible.

Anything less would mean permanent damage to primary and secondary education in this state, a course of destruction we cannot tolerate because of what it will mean not only to the future of our children, but to our state's ability to maintain a quality education system and to compete in the global economy.

Arizona needs to preserve education funding. A YES VOTE on PROP 100 will do exactly that. We hope you will join the members of AASBO in supporting this measure.

Thank you for your time, and for your YES vote.

Dr. David Peterson  
President

Tom Elliott  
President Elect

Arizona Association of School Business Officials
